attack is equal**

**Threat to
business and
society**

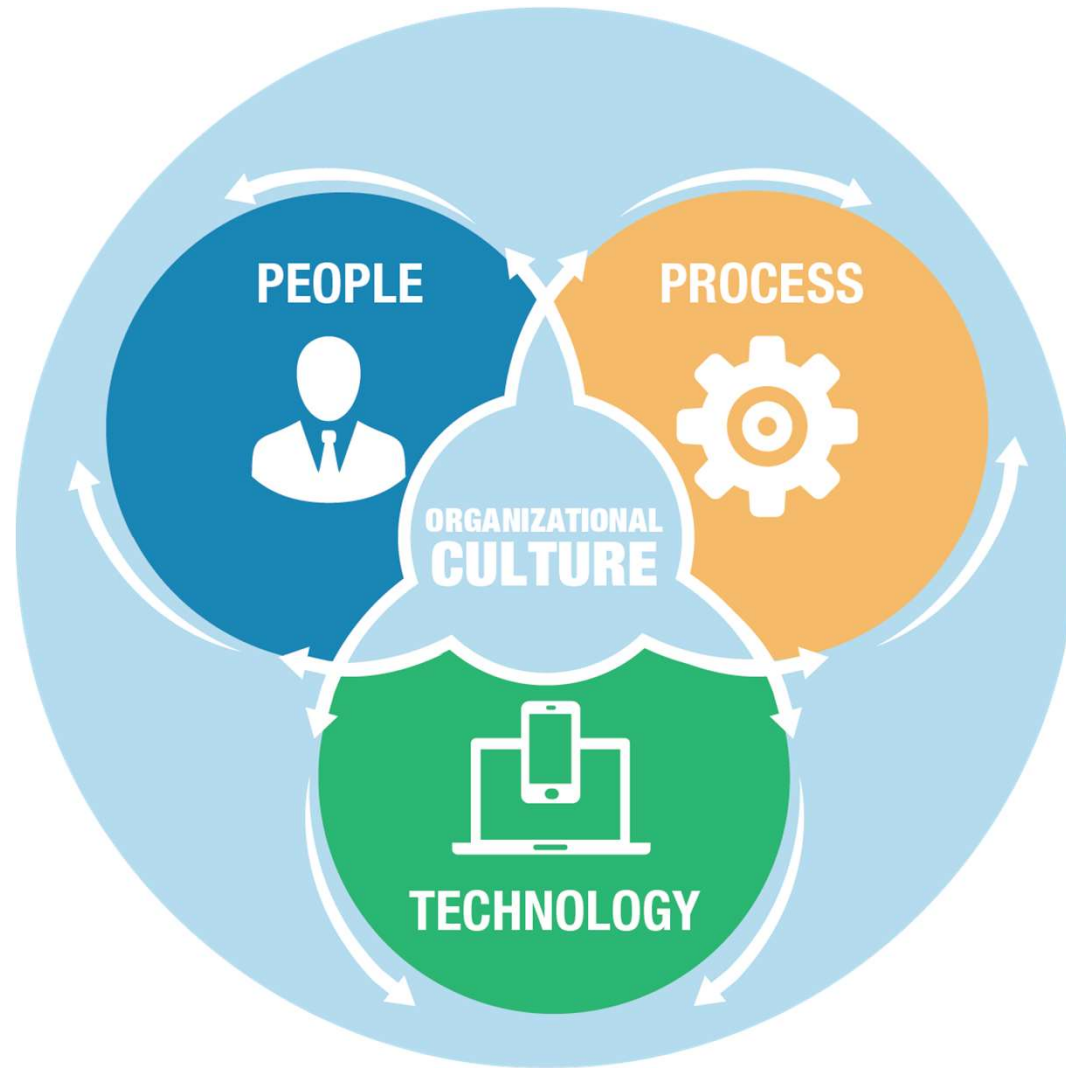

Virtual world: Free flow of data

A photograph of a high-speed train, likely a Dutch Thalys, crossing a railway level crossing. The train is blurred, indicating motion. The crossing is closed, with a red light illuminated and a sign that reads 'WACHT tot het rode licht gedoofd is er kan nog een trein komen'. The sky is blue with white clouds. The text 'Real world: Open - closed' is overlaid on the left side of the image.

Real world:
Open - closed
